

1992

HARTLAND CONSERVATION COMMISSION

The Hartland Conservation Commission met throughout the year on the first Monday of the month.

Some of the activities we have been involved with have included the proposed Upper Valley Landfill siting process. Board members have attended all the public hearings and have reviewed and commented on all the Hartland sites.

Also in 1992 the Commission finished our responsibility for our Act 200 Grant with the publication of the sixth issue of Common Ground. We have worked with the Planning Commission on this project and also reviewed and commented on the proposed Land Use Regulations.

The Commission started a mapping project to map all of the open land in Hartland. We hope to be able to field check our mapping work in the spring.

We continue to monitor the status of prime agricultural land in town with view towards conserving important parcels. The administration of the Conservation Trust Fund is also the Commission's responsibility. This Fund was set up to facilitate land protection activities within the town. Contributions to this Fund are always welcome.

Our meetings are open to the public and are always wide ranging and informative.

Respectfully Submitted,

Gregory Chase
Chairman
